

New Partnership With Humanity

a commentary from
Master Yeshua

As humanity advances and more and more souls become aware – as more and more incarnate souls become aware of their own spirituality and their own connection – we who are in the spirit realm find it easier to communicate with them. And the easier we find it to communicate with them, the easier it is for us to have a voice into the world of humanity and human affairs. Not just a voice that comes out in meditation and prayer, but a voice that comes out in what is spoken and what is written.

And as this happens, as we have more voice into the everyday world of human affairs, then we can have active partnerships. You might consider it like working with someone from a branch office halfway around the world, or working with someone through the Internet and Skype, someone you have never met in person. Once those channels of communication are open, we can become interactive partners and it is no longer a one-way street but a two-way street and we can give, for instance, a partially-finished product.

In the case of *Thoughts From A Master*, for example, I take a raw dictation and give it to my partners and say, "Clean it up. Put in the right periods and right paragraphs. Take away the redundancies, but keep the message, keep the focus. You need an example because this is not clear? Fine. Come back to me for an example and I will give an example." It is an active partnership and you will find that these active partnerships will expand and become more prevalent as the spiritual maturity of humanity advances. *Thoughts From A Master* is such a partnership.

Do not doubt the message because I do not.

I have partners, but they are junior partners. I control the final. I am editor-in-chief. I have final approval of what goes out, and if I am not satisfied the message does not go out under my name.

It is that kind of interactive partnership that you will see more and more of, whether it be for something like this, a written essay, or whether it is an active project where we [of the Hierarchy] are, in essence, the board of directors. It is an interactive relationship. I hope this clarifies the issue.

Thank you,
Yeshua
