

Humanity's Off-Earth Allies

Thoughts for Spiritual Growth

Master Yeshua

I wish to speak today of allies.

Now I have spoken to you about how we of the Community of Spiritual Masters plan for the shift and how we coordinate all planning with our allies¹. I have spoken of how critical the Devic-Angelic Kingdom is to planning something like the shift. I have spoken of how we coordinate with humanity – various stages of humanity as a matter of fact. We coordinate with those who are very near the end of their reincarnation cycles and those recently released from their reincarnation responsibilities.

There are other allies who worked and planned with us, although when I spoke of the extensive coordination the shift requires, I held their identity back. It is now, however, time to be forthright about the fact that we from the Community of Spiritual Masters have, for quite some time, been allied very strongly with beings from off Earth.

We do not call them aliens or ETs. We do not call them space brethren. We call them friends. We call them allies. So the term you will begin hearing is Off-Earth Allies.

Now what I would like to make certain is that you do not conjure images that go down the route Hollywood has presented, and picture them as vicious beings who, one way or another, are out to destroy humanity or take over the Earth or some other horrific and unlikely scenario.

I have made it clear in my essay on movies that we do use the entertainment industry to get messages across². That does not mean that all messages from the entertainment industry are those we endorse. Painting off-Earth beings in the monster mode is *not* a message we accept.

These, then, are the two issues I wish to raise:

- First, the fact that planning includes our Off-Earth Allies as well as the Devic-Angelic Kingdom and the Human Kingdom. The shift is a momentous occasion for Mother Earth and all associated with Mother Earth. Momentous planning with all our allies is needed.
- Secondly, the fact that we of the Community of Spiritual Masters have had such loving and giving, openhearted support from our Off-Earth Allies that it is a shame I have not mentioned them sooner.

But I mention them now. The time has come.

Just as we would strip away the mystique of pedestals that we of the Community stand on – we are simply your brothers and sisters from further down the road and we need to get those pedestals out of the way – we would present our Off-Earth Allies in perspective. They are beings who are further down the road yet, and they have turned back to help those of us from Earth.

Some of these allies are new to Earth. Others were, at one point in time, part of the Community of Spiritual Masters here on Earth. They chose to move on to other parts of the galaxy with their own spiritual journeys. They learned what was happening here on Earth and they volunteered to return and assist. There are some of those as well.

Life in the cosmos is most assuredly not limited to this planet. Now some of that life does not exist in the same physical realm as we are accustomed to on Earth. It exists rather in a neighboring dimension, commonly called the etheric. So, as I have said about the consequences of the shift – that human beings will begin to see, hear, smell, touch, taste events in neighboring dimensions and do so naturally without fear, that they will begin to see not only the devas and the fairies and the angels that some see already – they will also begin to see those from off Earth who have come to assist.

I will give you a little aside here. Just as not all denizens in the dense physical plane of Planet Earth are warm, loving creatures, so it is in other dimensions and one must always, *always* use discernment.

That said, I would like to assure you that not all, but I will say a great many of these stories about historical astronauts and flying saucers – not one of our favorite terms – do have some credence. This I will tell you. And there are reputable organizations that are studying these events and there are reputable organizations that are pulling back the covers on what has been hidden due to fear.

I hope I have made it clear that humanity has many friends that most people are unaware of, and that these friends are from off Earth. These friends of humanity from off Earth have been working with the Community of Spiritual Masters. They have been working with us on behalf of Mother Earth and on behalf of humanity, on behalf of the spiritual advancement of Mother Earth and the spiritual advancement of humanity.

I would like, if I may, to introduce one of our Off-Earth Allies and have her speak with you directly. This ally has a very long name. Her name is Keymy'yana-ka. Well, we think of it is a long name. She does not.

Her role here on Earth requires a bit of background.

The shift has begun. The much-talked-of year 2012 is definitely a year during which consequences of the shift began to manifest. And as we of the Community saw the way things were unfolding here on Earth, we sent out a request. I suppose you could call it an SOS to the cosmos, but it was much more specific. We requested support in the form of energies – calming, stabilizing energies – that could be distributed throughout the planet to all kingdoms, including the human.

We put out the request, and that request was answered. Our friends from beyond Earth sent and delivered what I shall simply call a package of energies that, when rightly integrated with Earth's natural energies, will provide healing, calming support as the shift progresses.

Now these energies are directed at Mother Earth – from the mineral kingdom to the plant, animal and human kingdoms – with a view toward calming, stabilizing and healing. I think that's the easiest way to describe them. They are also energies that benefit our neighboring dimensions, including the Angelic-Devic Kingdom.

But once here, these energies do need to be integrated. Several beings, also from beyond Earth, agreed to come to Earth and assist in the distribution and stabilization process. Keymy'yana-ka is one of these volunteers. She is from one of the cluster star systems. That is as much as she is willing to reveal of her origin, as much as is necessary. I asked

her to speak so that you could hear for yourselves one who is a valued friend to humanity as well as to Mother Earth.

I introduce Keymy'yana-ka.

Keymy'yana-ka

Thank you, Master Yeshua. I am grateful for this opportunity to speak to the readers of these messages. Yes, from my home system I was apprised of the call from the planet Earth. We have a very good communication system throughout the cosmos. I hope that does not alarm anyone. And I came to Earth.

I was very surprised at the beauty that is inherent in this planet and the human kingdom of this planet. One tends to hear the dark news rather than the news of light being spread throughout the planet. I knew of light and light workers here – we all knew that – but I was surprised at how skilled some of your light workers are.

I have been working with some of them to assist in the distribution of these energies.

I have found the Community of Spiritual Masters to be hard-working, dedicated and incredibly loving, concerned with the state of the world and wishing to heal.

You who are reading this are undoubtedly among the enlightened beings of the planet and I would say congratulations to you for anchoring the light here and letting it shine forth. And I would also say how very fortunate you are to have the Community of Spiritual Masters working so very hard with you for all of humanity.

In my home world, I work with the equivalent of the Community. So I suppose you might say I am on a fellowship program or some sort of intergalactic exchange program. My specialty, my heart concern, is the healing of physical environments.

In my cluster system, we do not limit ourselves to work on a single planet. We have our own network. I suppose you could consider it analogous to someone who works not in a single country, but has offices in various countries, except that we work and have our offices on various planets in the cluster system. My specialty is the environment, the physical environment of these planets.

So that is why I volunteered to come to Earth with these energies. I am accustomed to integrating healing energies into the, I would call it the natural system of a given planet.

Planets are great beings. They each have their own energy components and that is my specialty, this integration of energies from outside – a gentle integration to heal and support the growth of the natural energy system of any given planet. And that is why I came to offer my services to the Community of Spiritual Masters here on Earth.

When the energies are fully integrated, I shall return home unless, for some reason, there is other work I may do here. I would again say how fortunate you are to have Spiritual Masters who are doing so much, so diligently, to assist. They are bound by law because there is a limit to what they are allowed to do and they obey these laws. These are cosmic laws. I, too, am subject to them, both here and in my home cluster.

I thank you for your attention. I appreciate Earth for its beauty. It is a planet with much beauty in its physical being and in all the dimensions that are associated with it.

I thank you.

Yeshua

Thank you, Keymy'yana-ka. I will admit one more thing to the readers of these essays. Introducing one of our Off-Earth Allies is an experiment.

We of the Community are hoping that you will respond positively, with respect and friendship to the Off-Earth Allies some of you know you've had all along. Some of you may be following their messages, for they have been channeling messages, books, newsletters.

There are many allies who are doing the very best they can to assist humanity and assist Mother Earth. What is new, I think, is to have such a clear, open statement about the fact that those of us from the Community of Spiritual Masters³ have, for some time, been working very closely with these friends from beyond Earth, our Off-Earth Allies.

³ Yeshua: "The Community of Spiritual Masters is also known as the Hierarchy, but we are moving away from that term as being too much a psychological barrier."

I am hoping that you, the readership, will welcome them. And if they are welcome, I am hoping that others might speak to you.

Now you have email systems. If you have questions, I would invite you to ask them.

As you have been patiently getting to know me and my colleagues, I would have you get to know our Off-Earth Allies. Now we are not going into – I will emphasize the *not* going into – discussions of the macabre, but we will, to the best of our ability, answer respectful and reasonable questions.

My blessings upon you.
